

US HOMELAND SECURITY ONLINE TRAINING

Post 911, US Homeland Security recognized the need to improve training, awareness and education throughout its organization. They were looking to create more engaging and immersive content that better prepared its officers to understand and be better prepared to address the variety of threats that the US faced both domestically and abroad. I created a large library of vector illustrations that could easily be plugged into the many animated and interactive scenarios and sequences which built the vast world of security threats.

Eyes of a Terrorist: Aryan Brotherhood

DETAILS RESOURCES INSTRUCTIONS DOT

OVERVIEW

The Aryan Brotherhood (AB) is a white supremacists prison gang that formed in the California state prison system in the 1960s and later spread to federal and state facilities across the country. It uses symbols including the swastika and the white power symbol as part of its identity. Its primary focus is power, control, and profit rather than pure ideology.

The Aryan Brotherhood engages in large-scale criminal operations including drug trafficking, extortion, weapons dealing, and murder-for-hire. These activities are coordinated through a hierarchical structure that spans the globe. They operate in their own "territory" and dictate criminal enterprises within the prison system.

Because of its history, ideology, and violent operations, the AB is considered a dangerous extremist group. Law enforcement agencies at federal and state levels continuously monitor and prosecute its activities to

DISPATCH:

Dispatcher: 911, what's your emergency?

Caller: There was an explosion—everything is shaking, and there's debris everywhere!

Dispatcher: I understand. I need you to stay calm and listen carefully. First, are you in a safe spot right now, or is anything still falling or unstable around you?

Caller: There's dust and broken glass—part of the ceiling came down.

Dispatcher: Okay. Move slowly to a safer

Eyes of a Terrorist: Abdallah Azzam Brigades

DETAILS RESOURCES INSTRUCTIONS DOT

OVERVIEW

The Abdallah Azzam Brigades is a militant Islamist group linked to al-Qaeda that emerged in the Middle East in the late 2000s. Named after Abdallah Azzam, a Palestinian theologian and mentor to Osama bin Laden in the 1980s, the group evolved as part of the broader network of al-Qaeda-aligned organizations seeking to expand violent jihadism activity across the region and beyond.

Although it uses the name Abdallah Azzam, the group's ideology is closer to the global Salafi-jihadist movement associated with al-Qaeda rather than the original teachings of Azzam himself, who was more focused on early Afghan resistance. The Brigades' affiliation with al-Qaeda has led to its designation as a terrorist organization by multiple governments and international
